

The First Design Build Project at NDOT

Kyle Keller, a civil engineer with the Nebraska Department of Transportation, is currently leading the effort to establish the Design-Build Program at NDOT. He is the project manager for the first Design-Build project at NDOT, Scribner to West Point on US-275.

Join us for breakfast as we hear about how getting the bill passed to that enabled Nebraska to do Design Build. Hear about the project selected, the scope, the current status, procurement process, and schedule.
