

PRINT READING 101

The Nebraska Building Chapter's **Print Reading 101** is a 10-hour construction-specific, in-house, flexible training series developed by a construction educator with field experience. The course curriculum was determined and tested by a Task Group of Building Chapter members. This is a ready to-go training package! All you add is a session facilitator.

ABOUT THE COURSE:

The five-module course focuses on the print reading skills the entry-level employee needs to be successful. Each learning module consists of:

- Learning Video
- PowerPoint Slides used in Video
- In-Seat Activity Worksheet/Discussion Guide
- On-site Specific Activity Worksheet
- Test/Competency Assessment
- Facilitator Guide

PRINT READING 101 includes:

- Module 1: General Print Reading
- Module 2: Structural Steel Print Reading
- Module 3: Reinforced Concrete Print Reading
- Module 4: Exterior Finish Architectural Print Reading
- Module 5: Interior Finish Architectural Print Reading

Each Package includes: A **zip drive** with all of the curriculum content and (2) **Printreading for Commercial Construction** 4th Edition ATP Publishing text books. Additional books maybe purchased separately.
