AGC Nebraska Building Chapter		2019 LEGISLATIVE BILLS OF INTEREST—EXECUTIVE SUMMARIES As of 2-18-19
<u>LB20</u>	<u>Briese</u>	Require voter approval of public building commission bonds. Government Committee; Hearing 1-24-19. This is similar or may be same bill introduced in 2018.
<u>LB30</u>	<u>Kolterman</u>	Change and eliminate provisions under the Professional Landscape Architects Act. Government Committee; Hearing 1-25-19. It changes language of definitions, description of practice, duties, make-up of the Board, licensing process/procedures and penalties for non-compliance. Basically, tightening up and protecting their professional status. Sec. 81-8, 206 Sec. (2) (3) (4)- on pgs. 18-19 line 18-31 and 3-16 provide exemptions as in previous Act. To best of my knowledge this bill will not affect us.
<u>LB65</u>	<u>Groene</u>	Authorize a licensing exception under the State Electrical Act. General Affairs Committee; Hearing 1-28-19 Carve out exemption to Electrical Licensing Act to allow directional boring contractors to install conduit under direct supervision of Class A or B Master or Journeyman Electrician employed by electrical contractor. Adv to E/R
<u>LB95</u>	<u>Wayne</u>	Change applicability provisions for building codes. Urban Affairs Committee; Hearing: 2-12-19 This is very similar to Sen. Wayne's 2018 Bill that we supported. It defines "state and state agency" owned building or structures and states that for those built or renovated after 1-1-20 would be built to the building codes of where located if local codes met or exceeded the state building code. This bill adds that fees, if any for services which monitor a state agency's application of local codes shall be negotiated between state and local city/village which is responsible for compliance. SUPPORT
<u>LB96</u>	<u>Wayne</u>	Change local building code provisions. Urban Affairs Committee; Hearing 2-12-19 This also is similar the Sen. Wayne's 2018 bill. If no building code is in place in a city, town, village, the State building code will apply. We supported this bill last year. SUPPORT
<u>LB99</u>	<u>Wayne</u>	Change requirements of the Prompt Payment Act. Government Committee; Hearing: 2-20-19 Defines "small business" for purposes of this bill. Bill would provide that a qualified small business would receive payment from state agency in 15 days from receipt of invoice rather than current 45-days under the Prompt Payment Act. In 2018 this would apply to GC's under \$36.5M and SC under \$15M in annual volume. Last year we "monitored" this bill after Sen. Wayne had thought we would likely support it. I shared with him our thoughts that a 30-day pay for everyone might be a helpful solution for all size businesses and it would align with federal payments. OPPOSE
<u>LB107</u>	<u>Dorn</u>	Change provisions relating to city and village plumbing boards and change a penalty. Urban Affairs; Hearing 2-5-19 A wording clean-up bill.

<u>LB130</u>	<u>DeBoer</u>	Adopt radon resistant new construction requirements. Urban Affairs; Hearing 2-12-19 This bill language comes out of the work of the Radon New Construction Task Force recommendations for minimum standards. You may recall that in 2016-17 sessions we had to trade our souls to get 2 commercial contractor representatives on this committee. The Governor's office did call and ask specifically who we wanted the Governor to appoint. Chuck Richter (large volume contractor) and Keith Moje (small volume contractor) represented commercial construction on the taskforce that met in late 2017 and early 2018. Sec. 76-3505 on p.10 line 19-26 covers new commercial construction and basically states "new construction after effective date of act shall NOT be required to use radon resistant new construction if (1) the project utilizes the design of an engineer or architect registered". SUPPORT
<u>LB139</u>	Kolterman	Change provisions relating to a data base of contractors under the Contractor Registration Act. Bus & Labor Committee; Hearing 1-28 . This will not ask for additional info from contractor at time of registration, but rather display more of the information on the NDOL Registered Contractors web site. Added info to the site will include; does contractor carry WC insurance; is contractor self-insured in accordance with NE WC Act; is contractor not required to carry WC. NEUTRAL & MONITOR Adv to E/R
<u>LB151</u>	<u>Brewer</u>	Adopt the Government Neutrality in Contracting Act. Government Committee ; Hearing 2-20 . The Act provides for the efficient procurement of goods and service by governmental units and to promote the economical, nondiscriminatory completion of publicly-funded construction projects. The bill ensures that all RFPs, bid specifications, or any other controlling document for public contracts does not include: terms that requires, prohibits, etc. bidders/contractors from entering into or adhering to agreements with a labor organization; or a term that discriminates against bidders/contractors based on status as party or nonparty to or refusal to enter into an agreement with a labor organization relating to a project. Sen. Smith intro about same bill in 2012/2017, so maybe third time is the charm. SUPPORT
<u>LB204</u>	<u>Briese</u>	Require approval of voters for bonds under the Interlocal Cooperation Act. Revenue Committee; hearing date 1-24-19
<u>LB254</u>	<u>McCollister</u>	Adopt the Fair Chance Hiring Act. Business & Labor; hearing 2-4 . This is like "ban-the-box" legislation offered in prior years to prohibit most employers and employment agencies from requesting upfront that a gob applicant disclose info regarding his/her criminal record or history. Would apply to employers of 15 or more people. NEUTRAL & MONITOR On General File

<u>LB272</u>	<u>Morfeld</u>	Adopt the Apprenticeship Training Program Tax Credit Act. Revenue Committee; Hearing 2-1-19 Provides for nonrefundable credits against the income tax imposed on taxpayers who employ one or more apprentices as part of a qualified apprenticeship training program in amount equal to one-dollar of credit to hour worked by apprentice, not to exceed \$2,000 per apprentice. The bill authorizes a total of \$2.5 million in total credits per year. One snag, qualifying programs must be administered by trustees. I asked Sen. to take out administrative requirement by trustee. He agreed to amend it out so we SUPPORT with said AMENDMENT
LB301	<u>Lowe</u>	Transfer duties under the Boiler Inspection Act, the Nebraska Amusement Ride Act, and the Conveyance Safety Act from the Department of Labor to the State Fire Marshal. Business & Labor Committee; hearing 1-28-19 Adv to E/R
<u>LB310</u>	<u>Vargas</u>	Change procedures for tax credits under the Nebraska Job Creation and Mainstreet Revitalization Act. Revenue Committee; hearing 2-13-19. Bill deals with calculating and approval of credits, issue of certificates and the timing or agreed upon time it takes. FYI
LB348	<u>Quick</u>	Adopt changes to the state building code. Urban Affairs; hearing date 2-12-19 . To change state building code from 2012 to 2018. This is the second run on this on as well. I believe home builders shut it down last time. We stayed neutral on it last time. NEUTRAL & MONITOR
<u>LB405</u>	<u>Hunt</u>	Adopt updates to building and energy codes. Urban Affairs Committee; hearing date 2-12-19 . Adopts the 2018 editions of the IBC, IRC, International Energy Conservation Code. Requires a county, city, or village to notify the State Energy Office if it amends or modifies its local building or construction code in such a way as to delete any portion of (a) chapter 13 of the 2018 edition of the IBC or (b) chapter 11 of the 2018 edition of the IRC. The notification shall be made within 30-days after the adoption of such amendment or modification. Requires any county, city, or village may adopt and enforce a local energy code that is deemed equivalent to the Nebraska Energy Code. Currently, they are required to adopt and enforce a lighting and thermal efficiency ordinance, resolution, code, or standard deemed equivalent to the Nebraska Energy Code. NEUTRAL & MONITOR
<u>LB409</u>	<u>Kolowski</u>	Adopt design standards for health care facilities. Committee-Urban Affairs; hearing date 2-12-19 . To adopt the 2018 Guidelines for Design & Construction for Hospitals; same for Outpatient Facilities and same for Residential Health, Care, & Support Facilities published by the Facility Guidelines Institute for the construction, renovation and restoration/repair of any health care facility after effective date as determined by Health Department. Currently, guidelines are covered through Rules and Regulations administered by Health and Human Services and follow the 2001 Standards published by AIA Chpts. 7,10,11 NEUTRAL & MONITOR

LB462	<u>Friesen</u>	Change provisions of the One-Call Notification System Act. Trans/Tele Committee; hearing date: 2-11-19 . The bill establishes, defines purpose and details for board of directors under the rules/regs to be established by State Fire Marshal. Defines term "locator" and "ticket" for purpose of Act. Establishes a licensing process of locators by Fire Marshal and only those licensed may perform underground facility location activities. Establishes an appeal process and a dispute resolution board to hear/rule on appeal. Board will have five members; 2 excavator members, 2 operator members and 1 employee of State Fire Marshal's office. Establishes civil penalties for violations to Act. WE WILL FOLLOW THE LEAD OF NUCA ON THIS. We SUPPORTED
<u>LB513</u>	<u>Briese</u>	Change requirements for the issuance of certain school district bonds. Education Committee; hearing date TBD. If district has made up of at least 75% of district valuation is agricultural/horticultural land there must be an affirmative 60% vote to pass bonds. All other districts stay at 50%.
<u>LB577</u>	Vargas	Provide additional powers to the Commissioner of Labor related to investigations under and violations of the Employed Classification Act. Business & Labor Committee; hearing 3-15-19 . Give Commissioner of Labor the power to expedite an investigation and order a cease work order when the safety and well-being of the public is at risk. NEUTRAL, BUT MAY CHANGE TO OPPOSE
<u>LB527</u>	<u>Bolz</u>	Adopt the Customized Job Training Act. Business and Labor; hearing date 2-4-19. The Act creates the training fund by collecting the first .06 of 1% of all state unemployment insurance taxes. The fund is administered by DED. To use the training funds (via a grant application process and then using a prescribed training provider) an employer would need to funding training programs that create new jobs paying at least 100% of statewide average wage.
<u>LB648</u>	<u>Wayne</u>	Change the Community Development Law. Urban Affairs Committee; hearing 3-5-19 . This is TIF bill this year. It is the bill that puts the process for implementing redevelopment plans for extremely blighted areas into place. Extremely blighted area was defined in last year's legislation. This bill is unconstitutional unless LR14CA is passed first. This is what it "looks like" when LR14CA is in place. Under the bill an authority could not prepare a redevelopment plan that would divide ad valorem taxes for a period of more than 15 years unless the governing body of the city has, by resolution adopted after public hearings, declared more than 50% of the property in redev project area to be an extremely blighted area in need of redev. This bill will not move anywhere until next year and possibly amended into another bill. It just all depends on LR14CA.
LR14CA	<u>Wayne</u>	Constitutional amendment to authorize municipalities to pledge property taxes for up to twenty years if more than one-half of the property in a redevelopment project is extremely blighted.

<u>LB720</u>	<u>Kolterman</u>	Adopt the ImagiNE Nebraska Act and provide tax incentives. Revenue Committee; hearing date TBD. There are 22 co-
		sponsors on this bill as of now, across-aisle. This bill would replace the Nebraska Advantage Act which expires in 2020.
		It seems to have broad support from DED to all major Chambers. It's goal is to attract well-paying jobs (H3) and
		investment from business already here and bring in out-of-state companies. Bill will encourage better investments,
		jobs, and reporting, plus more transparency in process. It will accelerate and simplify the distribution of incentives and
		application process, increase "net present value" of tax credits and allow everyone to build greater relationships to lead
		to greater investments. The bill has 90 pages to cover all details and processes.

Tax Bills to watch that will affect construction and development: Everyone in industry will want to be aware of these.

LB103	<u>Linehan</u>	Change provisions relating to property tax requests. Would automatically reduce levies of taxing entities as valuations increase. In other words, if valuations increase 20%, the corresponding levies would decrease by 20%. The elected board of any taxing entity can vote to raise the levy, but they must vote. Consequently, they cannot take more money without voting to do so. This bill, is passed, would be very detrimental to younger developments and SID. May also discourage development. Again, not conducive to development/construction projects.
LB276	McCollister	Change provisions relating to the taxation of income from certain small business corporations and limited liability companies. Will drastically affect the tax situation of a fair number of Nebraska manufacturers and distributors. The tax change would be enough to make them to relocate businesses to other states, rather than expanding (building/renovating facilities) in Nebraska.

FYI: Revenue Bills that involve expanding sales tax to services in some way: oppose both (working through coalitions of others on tax bills)

LB314 Briese	Referral	Adopt the Remote Seller Sales Tax Collection Act and change revenue and taxation provisions
LB507 Briese	Referral	Impose sales tax on certain services and eliminate sales tax exemptions
LB497 Friesen	Referral	Adopt the School District Property Tax Authority Act and change revenue and taxation provisions.

According to the media LB497 is the most popular tax bill addressing different issues right now—very early in process, lots of discussion and options still to be heard in Revenue committee.

FYI: Workforce Training Bills all introduced on Day #10

<u>LB604</u>	<u>Lindstrom</u>	Authorize High-Wage Jobs and Capital Investment Creation Fund entities and provide grants, loans, and economic assistance to such entities. This is more of Economic Development bill.
LB639	<u>Stinner</u>	Adopt the H3 Careers Scholarship Act
<u>LB644</u>	<u>McDonnell</u>	Adopt the Nebraska Workforce Diploma Act
LB667	<u>Vargas</u>	Adopt the Youth Opportunities in Learning and Occupations Act
<u>LB670</u>	Linehan	Adopt the Opportunity Scholarships Act and provide tax credits
<u>LB714</u>	Crawford	Adopt the Nebraska Industrial New Job-training Act and authorize the transfer of certain withholding taxes

FYI: Labor Law - All Employers--

LB305	Crawford	Adopt the Healthy and Safe Families and Workplaces Act. Business and Labor; hearing date 2-4-19. This establishes a paid-leave mandate to give at least one hour of paid "sick and safe time" for every 30 hours worked. Under this act, starting on the 60 th day of employment, paid leave would be authorized for a list of reasons—click link to read. Private employers with 4 or more employees would be affected. Government entities would not be covered by this act.
<u>LB311</u>	Crawford	Adopt the Paid Family and Medical Leave Insurance Act. Business and Labor Committee; hearing date 2-4-19. This is a repeat of what we have seen introduced each session the last few years. Click link for a review.
